# LITTLE COCKROACHES®

In the summer of 2019, we'll introduce little cockroaches: beautifully illustrated booklets that will spread rapidly. Large enough to enjoy quietly, small enough to send. The first 32 titles are filled with short stories, poems, rhymes and recipes. Each title is richly illustrated and bound with a cahier stitch.

## NEW TITLES KEEP COMING

After the first batch of 32 cockroaches, at least four new titles appear every two months, divided over the different categories. In addition, a series of special editions will appear at various times during the year. A series of cockroaches around themes such as sports, the book week, public holidays and so on.

Bound with cahier stitch

Eco printed in the Netherlands

Comes with a matching envelope

Size: 12 x 17 cm

Pages: 16

Price: € 6,99

## CATEGORIES

Each cockroach has a send-allure, just like cards in a regular card rack. Think of stories and poems to send for someones birthday, or when they are sick or sad. There are booklets about the death of a relative or pet, about moving, about friendship (or the lack of it), about getting used to a new school or job, and about love, of course

LITERATURE

CULINARY

YOUNG

POETRY

The four main categories are literature, poetry, young and culinary. The aforementioned topics can be found in all these categories.

Think of a collection of poems about death in the poetry category, a story about friendship in the category young, comforting recipes in a culinary cockroach and a literary look at the phenomenon of celebrating a birthday in the literature category.

## DISPLAYS

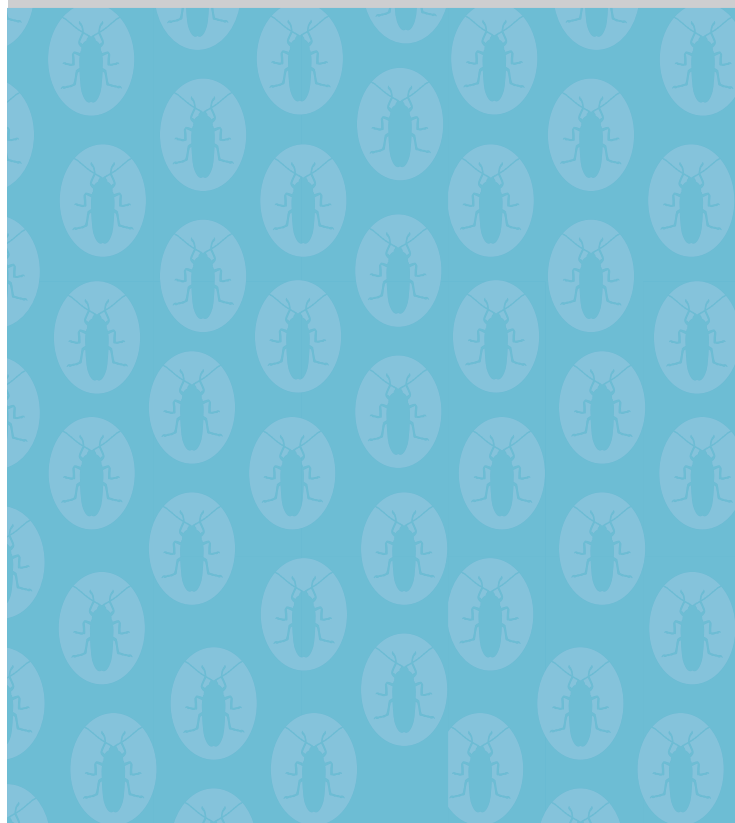

Not every store has room or need for a card rack of 32 cockroaches. The booklets are therefore also offered in table displays for twelve or four titles.

Of course we also provide a nice collection box. Because once you have one cockroach, you want more soon. Thanks to the striking combination of text and image, they are real collector's items.
