Bananabook

There are books about oatmeal and peanut butter. About avocado, apples and cabbages, but a cookbook about bananas was missing. And that while the banana is one of the most eaten fruits in the world. And enormously versatile!

We already knew that bananas are the perfect basis for a smoothie. And yes, banana bread is a fantastic way to turn some overripe bananas into a nutritious snack. But there is so much more to do with the banana!

For the banana book, Kim Waninge came up with recipes for every moment of the day. From breakfast and snacks to lunch, dinner and even cocktails! In short: from now on bananas can be used throughout the day.

Cooking with caramel

Of course, caramel tastes fantastic in the coffee or on a pancake, but you can do so much more! Both in sweet and savory dishes, because caramel is a sticky all-rounder.

In addition to basic recipes to make delicious spreadable caramel, the book is full of festive sweets such as hearty coffee sweets, cheesecake mousses and banana tartare. Also the many savory dishes are very special. From smoky salmon and chicory tarts to a piece of camembert, chock full of sweet notes. And what about a miso-caramel sauce with a portion of noodles with grilled bacon?

Cooking with caramel is a party for the sweet and savory lovers.

The big mash pot book

A book about mash pot, but most of all about fun in the kitchen. Packed with information, facts and handy tricks. About potatoes of course: the basis for (almost) every mash pot. But also about vegetables. Because without vegetables, no mash pot.

Read, for example, why there is always sand in the leek, how to make glue from potatoes or how you can really learn to like every taste.

With:

- more than forty very special recipes
- passports of over thirty vegetables, packed with interesting facts
- lots of funny, easily executable experiments.

Few people know that the Netherlands has been leading in the field of distilled spirits. The Dutch were the first to master the art of making excellent distilled products from agricultural products. Their distilling techniques were taken over worldwide.

A. van Wees distillery De Ooievaar is the only remaining artisanal distillery in Amsterdam. Located in the heart of the Jordaan, they distill according to authentic recipes.

In this sturdy, tightly bound book Fenny Van Wees talks extensively about the history of the family business Ooievaar / Van Wees, of which she has been leading since 2000. In addition, she gives her view on the history of distillation in the Netherlands and she elaborates on the art of smelling.

Peanut butter

Peanut butter is much more than a fantastic sandwich spread. The well-known peanut spread also performs exceptionally well as a seasoning. In meatballs or a Thai curry, for example. Whether in cheesecake, as coating on popcorn or in tasty, crispy peanut cakes.

To get started with this book, you really don't need a peanut butter addiction. But there could be a chance it will arise...

Pointy noses & cherry kernels

Foods are never far away on the paintings of Jeroen Bosch. From juicy sausages and richly filled pork heads to roasted fish and jars full of wine. These images and the characters that inhabit Bosch's work form the basis for over twenty short stories by master storyteller Jeroen Thijssen.

Each story was lavishly provided with background information and recipes by Lizet Kruyff. Jeroen Bosch grew up in the bustling, 15th century, 's-Hertogenbosch. A place where there is a lot to tell in the culinary field, thanks to archaeological finds, art historical research and other historical sources.

Cooking between vulcano's

Ko Sliggers reported on his cooking adventures on the southern Italian island of Lipari on the Dutch radio. What remained unreachable in the ether is fully reflected in this book: culinary history, the origin of ingredients and their peculiarities and such a 240 recipes from the South Italian kitchen.

"One of the most ground-breaking cook-books of 2014

Vrij Nederland

"In this original designed book the author investigates the history of Sicilian cuisine and at the same time cooks the stars of the island heaven."

Janneke Vreugdenhil, NRC

Over de auteur

Ko Sliggers is an illustrious designer. In 1979 he graduated cum laude from the Academy of Fine Arts St. Joost in Breda, after which he immediately went to work at Studio Dumbbar. Later he worked as an independent designer and taught at various art academies.

In the early nineties he had had enough of the design world and decided to do something else. He trained as a cook and worked in various restaurants in the Netherlands, France and Italy. Fortunately, designer blood started to itch again after a few years.

Good sweet!

More and more people choose to eat less sugar. Because they want to lose weight, are done with energy dips after sugar intake or because their body can no longer tolerate refined sugars.

In Good sweet! Nanne Hogeland provides plenty of information about sugar substitutes and above all: lots of recipes for cakes, cakes, cookies and treats. To show that you are also without refined sugars can make cheerful and deliciously sweet pastries.

In addition, Nanne gives plenty of gluten- and lactose-free recipes and a large number of tips for treats and snacks in school, office or during a day out. A book like an invitation and a party in one.

SPORTables

The store shelves are packed with energy bars and drinks in the most beautiful packaging. But what about the content? Do you really perform better with a fruit bar before you run? Is it useful to clock away such a sweet drink after exercise? And does your body need the same after strength training as after a good ride on the bike?

This book provides answers to all these (and many more) questions. And above all: it is full of recipes to make sports nutrition custom-made. Accurately tailored to your sport performance and taste. From a protein-rich recovery citizen for the powerhouse to a bar full of quick energy for the seasoned triathlete. And for everyone who wants to live fit and healthy: lots of snacks to fight the midday dip.

Plenty of information about what the active body needs and why. With clear display of nutritional values, allergens and eating styles with each recipe.

Food is pre-eminently something that you often do together. But what if you can not eat everything? Or if you have someone in your area with a food hypersensitivity or allergy? Then eating together suddenly becomes a lot more difficult. At least ... it was.

The recipes of Larisse Buijze are free of the most common allergens, without you missing anything. It makes the Stars from Heaven a wonderful cookbook for all possible cooking and eating moments that you want to share together.

Stars from heaven is not a diet book. It is not a book full of warnings, but a book in which enjoyment is central. So no recipes in which you go into the kitchen to make a portion of the 'normal' food, and a portion for those who can not eat everything, but recipes for everyone. No more separate meals, but dishes that everyone can enjoy at the table..

When cooking was just normal

Which dishes do writer Miep Diekmann think of her youth in the Antilles? According to theater maker Beppe Costa, what are the similarities between cooking and making a performance? And where does that fascination for game come from cook Peter Klosse?

Lisette Bossert wrote down special conversations she had about taste memories and the role of (delicious) food in life. Each conversation is provided with matching recipes. Recipes that take the reader back in time - think of the grits with syrup from Wieteke van Dort and bread pudding from Miep Diepman - and a contemporary version.

Maak van de noot een deugd

Every year in September the stores are filled with ginger cookies (a dutch treat for Sinterklaas). And every year there are people who are terribly angry about it. A boycott of supermarkets, campaigns on the internet, no-stickers for the mailbox. But all those actions do not change anything. The ginger cookies keep coming. And if they are there anyway, do something fun with it.

From ginger cooky liqueur and gingerbread pâté to spicy meatballs and tiramisu. The book offers more than tasty recipes. It's filled with useful tips and facts.

Volle muil

'Trees started to rock, some branches broke and leaves flew through the air. Little Owl was almost blown from his paws. And no matter how hard he clapped his wings, the wind forced him backwards. The wind blew him back to the pond.'

When the full moon is high in the sky, it is up to Little Owl to prove himself. Those who want to control the owls in the forest will have to catch a moonfish. Three chances Little Owl gets, before the moon disappears behind the clouds. Three chances to grab the fish from that deep, dark pond. Will the shy Little Owl succeed his father and turn himself into the new leader of the owl group?

Volle Muil is a coming of age story in which fear is overcome and a small hero transcends itself. A beautiful giftbook and self reading book for everyone from the age of eight.

Jacques Rogue and the 7 goats

He was there all of a sudden,
and didn't just leave again.
He went up to Grandmother to introduce himself, that much he understood.
"Jacques Rogue is my name.
You better keep an eye on me."
And that's what Grandmother did.
She made sure he ate his vegetables.
And saw to it that he behaved.
She kept him from going out all by himself.
But a villain goes where he should not.
Besides, he preferred meat to vegetables. Jacques Rogue had already noticed
that there was more to gain outside!
When Grandmother dozed off that afternoon,
he went out to meet the goats.

In Jacques Rogue and the 7 goats Merlijne Marell takes you to a world of fables, with fertile red cabbages, spying rhubarb leaves and biting brambles. It leads you to the vegetable garden of Grandmother and her goats, where all of a sudden a villain turns up.

Cooking Kate

Kate loves cooking and is not afraid to bluff her way out of things. When her mother takes on a job as a cook, Kate drops by regularly to help out. This doesn't always please her mother though. When Kate demonstrates her cooking skills, the whole restaurant is thrown into commotion...

A book containing cheerful stories and recipes.

Cooking can be magical, especially if you're not afraid to experiment!

What yeu see sometimes

what you see on the street sometimes

*sometimes, when you're walking down the street,
you're stepping just next to something.
a peculiar thing.*

A thing you've never seen before.

It isn't very small,

it isn't very big.

not very tall or short.

*It's not round or particularly flat. There's a bit of wood on it,
and some rust too.*

You can see some sort of hook.

Or is it a spike

A great book for early readers. About everything you can see sometimes. Or could see. If you look real close.

Limited edition notebooks

Loopvis has something new: limited edition notebooks with art prints by artists.

Our 'own' Merlin Marell started the line. She manually supplied the first series with a screen print of characters that you often see returning in her free work: Fox and Raven.

The second series is also provided with a screen printing. This time by Helehelena.

Only 125 pieces are available per print. Each notebook is numbered by hand and securely packaged in transparent foil.

In the notebooks you will find a new grid on each spread. From (just not horizontal) lines, squares, storyboard boxes (also ideal for frames), dots and a number of blank pages.

Are you your toilet?

Fifty personal stories about the smallest room in the house. From old-fashioned cozy and hyper-hygienic to the toilet as a meeting place or museum.

It happens often: you go to the toilet at somebody's home and during the visit you look around carefully and wonder about this little box where you are surrounded by all sorts of personal items.

Walls full of photos, memories, calendars. Shelves full of figurines, candles, souvenirs. But why exactly these objects? And why precisely in this place?
